The Music is Classic Art Rock.  
The Lyrics are Poetic and Visionary.  
All of the Albums are a  
Doorway to Classic Art Rock  
Composition and Performance.

"I call our music classic "art rock" because of the energy and sensibility we bring to the tracks and performances," says **Art Rock Ensemble** co-founder and band leader John Miner. "The music's got the 60's and 70's theater vibe with a warm club feeling."

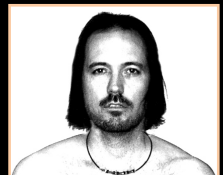

Raised in a family with a vocational artistic lifestyle, John came up under the loving wings of creative parents in a house full of music. Be it blues, jazz, pop, soul, or the classics his parents listened to music religiously. So naturally, John developed an early appreciation for the sound and performance of music.

After stints in Las Vegas and Los Angeles, John has settled his domestic and business roots in Vallejo, CA — and is an active supporter of putting the City and its musical community (back) on the map. John, co-founder percussionist Michael DiMartino and his fellow **Art Rock Ensemble** artists, and other music professionals are contributing to help to revitalize a sustainable live music and recording industry scene in the fabled NorthEast Bay City.

The band dropped their first self-produced CD in 2016, creating an undeniable buzz online fans and critics. **Art Rock Ensemble** continued to feed his audience with celebrated tracks such as "*East Tennessee Blues*" and "*Highway 13*."

This EPK is dedicated to helping generate live gigs for this exceptionally strong live performance band. To book ARE please call: 415-300-6636 or email: [ilabelplanet@gmail.com](mailto:ilabelplanet@gmail.com).
